

LIST OF ALL FHC RESOURCES

SORTED BY GEOGRAPHICAL REGION

This report lists all the books, CDs, fiche and microfilms in the Toronto Family History Centre (FHC) at Don Mills and Eglinton. The resources are grouped by "Region" according to their content or subject matter. Resources with general content without a specific geographic area, as well as compiled genealogies of families, are listed together first, in a "General" Section. The remaining resources are then grouped and listed by the geographic area of their content or subject matter. The groups or "Regions" are as follows (in the order of this report):

GENERAL

ASIA

AUSTRALASIA (Australia and New Zealand)

EUROPE (does not include United Kingdom and Ireland)

NORTH AMERICA (includes Central America and Caribbean)

SOUTH AMERICA

UNITED KINGDOM and IRELAND

For more information, please read the introductory material in the document "Introduction" (available from the FHC). That document also includes a list of the Chapman Codes referred to below.

For each entry in this report, there are four columns of information: **TYPE**, **NUMBER**, **LOCATION** and **DESCRIPTION**.

TYPE There are five TYPE identifiers used: BOOK, CD, FICHE, FILM and COLLECTION. FILM items are microfilms which have been borrowed from the Family History Library (FHL) by patrons, and retained by them at the FHC on indefinite loan. COLLECTION items are microfilms which form part of special collections that have been acquired by the FHC to provide research help to patrons. All Resources can be viewed by any patron without prior arrangement.

NUMBER The information in the NUMBER column depends upon the resource type. For books, the name of the author, if known, is given. For CDs, there is an FHC-assigned CD Code which is found on the jewel case of the CD. For FICHE, FILM and COLLECTION items, the FHL Catalog number is given (microfiche and films that have not come from the FHL, have been assigned a unique FHC identifying number).

LOCATION The LOCATION column indicates where the item is found. For books and CDs, the bookcase number (BK followed by a number) and shelf number (the number after the dash) are given; e.g. an item on BK3-5 is on shelf 5 of bookcase 3. For microfiche and special COLLECTION microfilms, the cabinet and drawer are given; eg an item in E3 is in the third drawer of Cabinet E. No location information is given for FILM microfilms; these are filed in numerical order in the film cabinets in the "ANNEX", and the contents of each drawer are clearly marked.

DESCRIPTION The DESCRIPTION column provides a brief description of the item, and groups items which relate to a specific area or place. The first one or more three-letter uppercase codes, indicating the geographic area or place, are Chapman Codes. For more information, and a key to these codes, see the document "Introduction". More information about the contents of a particular FHL film, vault film or fiche is usually available by doing a "Film/Fiche Search" on its NUMBER in the online Family History Library Catalog at www.familysearch.org. The description of many of the books includes a reference to "Dots" or "Stars", which are stickers on the spines of the books. A more detailed description of the Dot/Star system is available at the FHC in the Book Listing.

GENERAL

TYPE	NUMBER	LOCATION	DESCRIPTION
